

NURDAULET BEKETOV

Backend Software Engineer - Distributed Systems / AI Infrastructure

Astana, Kazakhstan (UTC+5) | nurdaulet.beketov.2005@gmail.com | github.com/nbmDaka | t.me/nbmdake | linkedin.com/in/nurdaulet-beketov

EXPERIENCE

Zanger - Production Engineer

2025 - Present

- Own deployments and incident response across Linux production infrastructure.
- Handled security incidents; hardened affected layers.

Rocky Rocks - AI Platform Engineer

2025

- Built RAG retrieval pipeline: embedding generation, vector search, AI re-ranking.
- Shipped semantic job matching to production.

AML Academy - Production Engineer

2024 - 2025

- National testing platform: 3.5M+ registered users, 40K-50K peak concurrent users.
- Java / Spring Boot services, PostgreSQL, exam-window peak reliability.

EDUCATION

Astana IT University - Bachelor of Software Engineering

2022 - 2025

STACK

Backend: Go, Java, Spring Boot, NestJS, Kafka, gRPC

Data: PostgreSQL, MySQL, Vector DB | Infrastructure: Docker, Linux, Nginx

AI: RAG, Embeddings, Vector Search, AI APIs

SELECTED SYSTEMS

- National Testing Platform - national exam delivery at 40K-50K peak concurrency.
- AI Job Search Platform - RAG pipeline, vector search, AI recommendations.
- AI Media Generation Platform - asynchronous, queue-based generation workflows.
